

## Green Data **For All** | INSPIRE Conference 2023 Programme

### Session No. 7 | Common European data spaces: the way forward

28 November 2023, 09:00 – 10:30 CET

#### Objectives of this session:

- to raise awareness on the concept of data spaces in Europe and how this model of data sharing is enabled and relates to the EU data strategy, the regulatory framework and bodies like the European Data Innovation Board;
- to present the Common European Data Spaces and the [Data Spaces Support Centre](#) (DSSC)
- to disseminate the availability of the [Data Spaces Blueprint](#) (v0.5 – release by DSSC on September 2023), which offers building blocks across technical, business and governance elements;
- to invite the INSPIRE community to not consider itself in isolation but as integral part of the wider spectrum of data initiatives supported by the EU, from open data to High-Value Datasets to the data spaces programme: value to citizens and businesses will come from the integration of all of these;
- to show that the lessons learned from the long INSPIRE experience can and shall influence the work of data spaces;

**Topics covered:**

Topic	Speakers
Policy background to common European data spaces: from the European Data Strategy towards a true single data market (20 mins)	Johan Bodenkamp (DG CNECT)
The Data Space Support Centre and latest advancements (20min)	Gianfranco Cecconi (Executive Director DSSC)
Panel Discussion (40min)	Johan Bodenkamp (DG CNECT) Gianfranco Cecconi (Executive director DSSC) Ulla Kronborg Mazzoli (Chief Advisor for the Danish Agency for Data Supply and Infrastructure) Richard Stevens (“GREAT”: preparatory action of the Green Deal data space and IDC-AVP Director of Government Consulting)

**Moderators:** Gianfranco Cecconi (Executive Director DSSC)
